

MAKE A DIFFERENCE

*The Association of Extremity Nerve Surgeons
Proudly Announces the Formation of
The Extremity Nerve Research Foundation*

*The Foundation mission is to provide charitable outreach
and promote scientific research and education for extremity
nerve treatment.*

MISSION:

The Guayquil, Ecuador mission is led by Dr. James Wilton. The mission is in conjunction with The Damien Foundation & The Luis Vernanza Hospital (*the largest charity hospital in South America*)

*1 week
Over 200 patients from area villages....
Treating diverse pathologies*

Pathologies treated include: nerve damage from leprosy, reverse paralysis of arms and legs, pediatric and adult extremity deformities. The team includes surgical assistants, hand orthopedists, podiatric physicians and anesthesiology staff and local security.

RESEARCH:

The ENRF research focus will be to conduct and support scientific research to advance extremity nerve treatment. Without documentation, publications, scientific studies and communicating to patients, nerve treatment will NOT advance. Current studies being discussed include epidermal nerve vs. PSSD, blood flow study, EMG NIM impact, amputation impact and Baxters nerve. For research projects, grants or donations, contact Dr. Stephen Barrett or the main AENS office.

Dr. Barrett challenges each member to make a \$5000 donation to the Foundation. Payment plans are available. Be a part of the future.

Yes! I WANT TO MAKE A DIFFERENCE:

- Donation: \$150 \$___ Other
 \$1500 Humanitarian Sponsor
 \$2500 Corporate Sponsor
 \$5000 Research Sponsor
