Make A Difference

Extremity Nerve Research Foundation

The Foundation mission is to provide charitable outreach and promote scientific research and education for extremity nerve treatment.

The ENRF research focus will be to conduct and support scientific research to advance extremity nerve treatment. Without documentation, publications, scientific studies and communicating to patients, nerve treatment will NOT advance. Current studies being discussed include epidermal nerve vs. PSSD, blood flow study, EMG NIM impact, amputation impact and Baxters nerve. For research projects, grants or donations, contact the main AENS office.

YES! I Want To Make A Difference!

All donations are appreciated. For supplies, endowments or designated research gifts, please contact info@aens.us.
